Digital Transformation & Cybersecurity Solution Service Provider

Digital transformation market: broad opportunities but different rules from the classic IT

We offer the **latest technologies** - RPA, ML, AI, IoT, Big Data, etc.

We offer proprietary **intellectual products** and services: Softline cloud platform and Softline IoT platform

**Cybersecurity**
- All industries, small and medium business, large business, public sector
- Full line of products and services
- Critical infrastructure protection, own SOC
- Trusted by the customers
We are a global IT services provider that helps businesses and governments **to carry out digital transformation**.

We convert digital technologies into **profit of our customers and well-being of the citizens**.

---

**Business**

We help developing and implementing Digital Transformation scenarios that increase profits and bring new income generating models.

**Government**

In every country we operate, we seek to contribute in building e-government, a vital competitive edge for any nation.

**Society**

We make Digital Technologies widely available, this facilitates sustainable development and improves accessibility of public services.

**Employees**

To every employee we offer professional fulfillment, prestigious and well-paid job, immersion in the latest digital technologies.

---

**Softline Mission: We Help Businesses and Public Sector Operate Efficiently in Digital Economy**
Our Values

1. Leadership
We strive to be No.1 in the key lines of our business. We bear responsibility for our promises and deeds.

2. Customer focus
We listen to our customers and hear them. We create business value for our customers. We are interested in understanding and solving the tasks of our customers.

3. The team is the core of our business
Team success is everyone’s success. We are one global team — One Softline.

4. Innovations
We know and anticipate market trends. We focus on searching the growth opportunities. We make substantial investments in and pay much attention to cutting-edge technologies and innovative projects.

5. Responsible business
We support the sustainable use of resources and healthy lifestyle. We observe the laws and business ethics. We respect the traditions of every country.
Partnerships with 3000+ Hardware & Software Vendors

1. CLOUD
   - private, public, hybrid clouds

2. SERVICES
   - full spectrum of IT services and solutions

3. SOFTWARE
   - licensing and subscriptions

4. HARDWARE
   - hardware provisioning

Strategy for 2020-2021

**Softline** is the IT solution provider in major developing countries and in fast growing markets. Long-term strategy is the same – international expansion, IPO. Main objectives:

- **50/50%**
  - Russia – non Russia

- **50/50%**
  - Services – Not Services

- **50/50%**
  - Cloud – Not Cloud

Cybersecurity

We are among TOP 3 largest Russian cybersecurity companies (CNews Analytics, 2015)

200+ cybersecurity projects implemented

- Web services protection
- Infrastructure protection
- Antifraud
- Industrial security
- Web and email protection
- Access management
- Network protection
- Compliance
- Protection from targeted attacks
- Data protection
- Import substitution
- Security Operations Centers (SOC)

Services
- Audit
- Design
- Implementation
- Compliance
- Support
- Training
- Security as a service
SOC – Security Operation Center

Security Operations Center is an intelligent system for security incidents detection and prevention, control over abnormal events and user actions.

SOC recognizes cyberattacks and incidents, initiates response and even prevents.

SOC unites technology, processes and people with specific skillset.

Infosecurity SOC as a Service

It is difficult and expensive to build and operate own SOC; most consumers prefer connecting to existing SOC centers.

• Softline’s Infosecurity SOC (ISOC) is a security center that our customers can use.

• Your security events are delivered to ISOC, where they are analyzed to identify incidents and launch response.

• 24 hour security monitoring; consultations and online analysis of hosts can identify the causes of incidents and eliminate them.

• A full range of works to investigate and eliminate threats.
Infrastructure

250+ projects in 2017
200+ engineers in staff
50% CAGR

Basic Infrastructure
- Server and storage delivery, configuration and commissioning
- Basic services (AD, networking services, file services, certification services, printing, email)

Engineering Systems
- Air conditioning, uninterrupted power supply
- Structured cabling systems, including smart ones
- Dispatching
- Video surveillance and video analytics

Networking Infrastructure
- Switching, routing, load balancing
- Wi-Fi networks
- Telephony
- Unified communications, video conferencing

Virtualization
- Server and storage virtualization
- Desktop virtualization (VDI/VDI 3D)
- Network virtualization
- Application virtualization

ITSM
- Automatic service management
- Service Desk
- Business continuity, backup
- Availability and performance monitoring, configuration management

We know we can

Dedicated unit for servicing Microsoft solutions customers

10+ years of experience with solutions

100+ Certified professionals in Russia, EE&CA, LATAM and APAC

2500+ projects implemented

30+ out-of-the-box solutions

We know we can
All Microsoft Licensing Programs, Licensing Services

20+ countries with LSP status

Argentina, Armenia, Azerbaijan, Belarus, Brazil, Bulgaria, Cambodia, Chile, Colombia, Costa Rica, Croatia, Georgia, Hungary, India, Kazakhstan, Kyrgyzstan, Malaysia, Mongolia, Myanmar, Peru, Philippines, Romania, Russia, Serbia, Slovenia, Tajikistan, Thailand, Turkmenistan, Uzbekistan, Venezuela, Vietnam

CSP Program Partner

- CSP is a beneficial way to purchase Microsoft products
- Softline - CSP distributor since launch of CSP

CSP T1 for in-house use

- Lack of capital expenditures
- Flexibility in resource consumption
- No obligation to standardize the entire PC fleet

CSP T2 for your clients

- Resale Licenses and Web Services
- Implementation, support, consulting
- Custom Development on the Microsoft platform

SPLA Reseller

Partner program to provide services to end users

- 8+ years of experience, 300+ partners

SPLA to serve your clients

- Create Cloud Solutions
- SaaS Services
- System integration, outsourcing
- Database Hosting and Web Hosting
- SaaS Solution Development

SPLA for in-house use

- IT services within the company are provided by a service company (non-affiliate)
- Affiliate program to provide services to end users

Our advantage is a deep understanding of licensing rules and rich licensing experience
Scenarios powered by Azure

- On-premises infrastructure migration in Azure
- Data Protection and Business Continuity with Azure Disaster Recovery Services
- Data Security and Threat Protection with Azure Security Center
- Power BI analytics in the Azure cloud
- Data Protection and Business Continuity for SAP Solutions
- Azure Cloud Rendering on Autodesk Products
- Azure Cloud Computing with Solidworks
- Azure StorSimple Hybrid Storage
- Migrate 1C base to Azure and deploy 1C test environments in Azure

Azure-based ISV partner solutions

- Addreality: targeted smart ads
- Earlyone: smart queues
- Express: a business communications system
- VizorLabs H&S: AI-based video surveillance and analytics
- HeedBook: a neural network in the service of a customer service
- Vocamate Interactive: Smart Call Center
- Express: коммуникационная система для бизнеса

Solutions on Office 365 platform

- IP Telephony for Office 365
- Data and mail backup for Office 365
- Portal solution for Office 365 users
- Office 365 administration support
Business Solutions

We solve business tasks

• Cost reduction
• Sales growth
• Client relationship development
• Quality improvement

Our services

• Business process analysis
• Solution implementation, migration, and customization
• Project experience and the best global practices

We know we can
Smart Hardhats – IoT for worker safety

- The solution for those who want to work without accidents
- Implemented as part of the Softline IoT proprietary platform
- Remote monitoring of employee safety compliance:
  - Hardhat-on control
  - Geo positioning
  - Shock sensor
  - SOS
  - Certificates of compliance
  - Buy or rent

Base stations, up to 10 km coverage on the open terrain, up to 2 km in the city

Hardhats with sensors and radio modules

Analytic server on-prem or in cloud
CAD and GIS

30+ vendors in the portfolio
30+ high-qualified experts

6 industry-specific divisions

- Architecture and construction
- Geographic information systems
- Infrastructure
- Mechanical engineering
- Design and visualization
- Cost sheets and regulations

- Consulting support and implementation of state-of-the-art CAD tools (BIM, PLM, GIS)
- CAD strategy development
- Customization of CAD systems for specific tasks
- Building an e-archive of project documentation
- Streamlining project document workflow
- Configuring and running CAD systems of virtual graphic workstations

We know we can
Managed Services from Softline

Using managed services is outsourcing of non-core corporate IT systems or services to a third party.

- IT outsourcing, IT operation, keeping the systems up and running
- Infrastructure and IT solutions as a service (Cloud)
- Information security as a service (SECaaS)
- License management outsourcing (SAM24)
- Providing hardware and workplaces
- Pay-per-copy printing
- Backup as a service
- Solution management and monitoring
- Video surveillance as a service
- Mobility management
Outsourcing and Technical Support: Delivering Managed Services

8000+ customers of outsourcing and tech support

400+ certified engineers

200+ vendors supported

We provide 24x7 multi-vendor technical support and solve cross-vendor problems

Softline offers basic, incident-based, optimal, and resource technical support

Basic Technical Support – FREE for all Softline customers!

Unified Online Technical Support all over Russia

Full Coverage of all time zones, 24x7 operation mode

Maintenance of ALL customer infrastructure

Finding solutions for CROSS-VENDOR problems.

We know we can
Softline Education

#1 on the corporate education market

200+ vendors

1500+ courses of any complexity in various fields

in 9 cities

With Certiport and Prometric testing centers

25 branches in Russia and the CIS

We make education less expensive and more available

- Day and evening courses
- Full-time and blended (live/distance) learning
- Custom training plans
- Remote workshops Testing before and after training
- Training on customer’s premises
Certified professionals

- Accredited Tier Designer (Uptime Ins.)
- CDCDP

Licenses

- Self-regulatory construction and design organization license
- License of the Ministry of Emergencies

Republican Data Center in Minsk
The best data center project in 2016 in the CIS

- Construction and design of a data center with 624 racks, 7 MWt total power
- Modular solution built from scratch
- Tier III certified (Uptime Institute)
Software Asset Management

Software Asset Management is an efficient practice to control and manage your corporate software assets on its lifecycle from budgeting to decommissioning. SAM uses specialized tools and dedicated roles.

SAM as a Service

SAM without software purchase, without infrastructure load, without staff involvement
- We install agents on the PC and server for data collection and encrypted transfer to Softline
- Softline engineers analyze the data and regularly provide reports on:
  - Compliance of installations with licenses;
  - Software usage statistics, including Office 365 and Azure
  - Analysis of SQL functioning parameters to optimize settings.

The customer receives:
- Knowledge of the cost of ownership and cost reduction recommendations;
- Reduction of technological and legal risks;
- Understanding of infrastructure transformation opportunities.

Once a year, the SAM Cybersecurity service, SAM Cloud Productivity service or another service is provided to the subscriber.

Specialized SAM Projects

**SAM Cloud Productivity**
The analysis of infrastructure in terms of efficiency and feasibility of using cloud services

**SAM Cybersecurity**
The analysis for cybersecurity threats from the point of view of software licensing and renewal

**SAM Server Optimization**
Detailed analysis of the server environment, use and licensing of SQL Server

**SAM Infrastructure Optimization**
Analysis of the use of desktop and server applications

We know we can
Financing of Comprehensive Projects

**Leasing** is long-term IT equipment rental with the right to buy it.

This model can help you develop and strengthen your business without a major impact on current cash flows.

**Leasing benefits**

- Not needed to withdraw a lot of funds from budget
- Tax benefits (income tax, VAT rebate, property tax)
- Getting an approval of leasing is easier than credit approval
- Payment in rubles — no risks of exchange rate jumps

---

**Streamlined Process**

Full support of leasing transactions

**Comprehensive Projects**

It is possible to finance a comprehensive solution

**Various Financial Models**

Financial leasing, operational leasing, subleasing

**Internal Competition**

The client receives the best offer from the company

---

We know we can
Softline Finance – installment payment up to 1 year

- Pay by installments for any mix of products: software and hardware, clouds, services
- Transaction without guarantors and collateral
- Online Payment Calculator

Term:
60 days to 1 year

Amount:
From 300 000 RUR for 6 month
From 600 000 RUR for 1 year
Why Softline? 5 Reasons to Choose Us

- Reliability, proficiency and expertise of the IT market leader with 25+ years of experience.

- One point of contact to solve all customer IT tasks, multi-vendor support and project implementation.

- Softline is always within your reach. We speak your language in 50 countries and 95 cities.

- Qualification and expertise of Softline is recognized by customers, vendors, and market experts.

- Softline is trusted by the leading market players, small and medium businesses, governmental clients and academic institutions.
